

## **CLEANING, REMEDIATION & DECONTAMINATION OF THE CORONAVIRUS (COVID-19).**

**MT2 IS A LEADING NATIONWIDE ENVIRONMENTAL COMPANY.**

MT2 has completed over **3,000 environmental cleaning projects** to date! We average **150-200 Indoor/Outdoor** project cleanings a year. MT2's personnel have over **20 years of experience** in the Firing Range cleaning industry, with an average of **10 years of expertise** in biohazard cleaning. We are experts at not just lead hazards but also biohazards such as Coronavirus.

### **MT2'S SERVICES SPECIALIZE IN:**

- Keeping your range open and operating safely
- Getting your range facility re-opened

### **WHY MT2 IS QUALIFIED:**

**MT2 is EPA & OSHA certified to safely & securely disinfect your facility:**

- Our Training: OSHA certificates, specific task training, detailed work plan
- Our Specialty Equipment: Foggers, surface cleaning, air filtration, etc.
- Health & Safety: Professional safety procedures protect workers equipped with specialty PPE and respiratory protection.
- Our In-House Certified Industrial Hygienist: for specialized consulting services at your facility with expertise in occupational safety and health.

### **WE CLEAN MORE THAN YOUR RANGE, WE CLEAN YOUR ENTIRE FACILITY:**

- Retail Shop
- Customer Lounge
- Restrooms & Locker rooms
- Contents cleaning & Misc. Supplies: guns, supplies, furniture, displays, pens, and more.

### **MT2 ON-SITE CLEANING/DISINFECTING SERVICES:**

**Our services will include the following, from a certified cleanup technician:**

- Comprehensive Management Plan: step by step process hazardous waste management during the cleaning/disinfecting process of your facility.
- Use of PPE Suits (Personal Protective Equipment) with Full-Face Respirators: we will be able to safely clean and disinfect by CDC approved methods.
- Head-To-Toe Cleaning: Wet wipe facility, including floors and walls. Cleaning and HEPA vacuum the work area.
- Filter Changes: to help ensure clean and healthy ventilation.
- Hazardous Materials Management: performing hazardous materials handling, waste characterization, storage packaging manifesting, treatment.

To combat the continuing spread of this virus it will be important to have a skilled, and trusted professional company in the biohazard remediation industry for your interior surface cleaning as well as safe disposal of infected materials. MT2 is a professional remediation company that routinely performs decontamination work with certified and qualified workers to help protect your employees, shooters and your community!
